Objectives

- To seek a challenging career in an organization having the environment that encourages continuous learning and provides exposure of new technologies, so as to achieve professional and personal growth in the field of Information Technology.

Academic Profile

- **B.E. C.E. (Bachelor of Engineering in Computer Engineering)**
  YEAR   : May 2012.
  CGPA   : 7.11.
  INSTITUTE   : Sardar Vallabhbhai Patel Institute of Technology,
                                  Vasad-388306, Gujarat, India.
  UNIVERSITY   : Gujarat Technological University (GTU), Ahmedabad.

- **Software Engineering Technology (Fast track Advanced Diploma Program)**
  YEAR   : September 2013
  INSTITUTE   : Centennial College, Progress Campus, Toronto, Ontario.
  STATUS   : I am in 3rd Semester.

Extra-Curricular Activities

- I have done certified course in c language.
- I participated in Code-Crackles in c in "SAKSHAMA 2009".
- I have attended the workshop on software inertia and gave seminar on it in "SAKSHAMA 2009".
- I have attended the one day workshop on "J2ME".
- I gave seminar on "Bluetooth Virtual Keyboard" in my 5th SEM.
- At school level, I represented school in Cricket competitions.

Technical Skills

- Programming using Java Technology.
- Web Development using HTML, JavaScript, and .NET.
- Programming knowledge of languages such as c, c++, sql etc..
- Understanding of operating systems such as windows, Linux, Unix and its compatibility.

Academic Project

- **Title**   : Administration Monitoring And Controlling System
- **Team Size**   : 2
- **Role**   : Team Member
- **Technology**   : Advanced Java.
- **Tools used**   : Net beans 7.1.1.
- **Joined Institute**   : Bisag, Gandhinagar, Gujarat, India.
- **Description**   : Administration Monitoring and Controlling system is the software to help administrators to help them monitor and control the computers in the local area network. Administration Monitoring and Controlling system is the networking application which can be used to monitor the applications and processes of computers connected in the local area network and the visual perception of the employees using those computers in the workplace. Administration Monitoring and Controlling system is also helpful to file transfer and communication among the nodes. This system gives the necessary ability to the administrator of the local area network to monitor visually as well as activities of computer also.
- **The project taught me Software Engineering skill and real-time execution of project. It also enhances my programing knowledge and creative and thinking strategy in Java.**

Areas of Interest

- Work in industries and to get deep knowledge of Java technologies.
- Software Project Management.
- Learning and developing new technologies like Android, iPhone.

Work Ethics

- Work well under tight deadlines.
- Efficiently and consistently achieve targets.
- Good presentation, writing, editing skills and quick learning capability.

Personal Details

- **Name**   : Ankit Shaileshbhai Patel
- **Address**   : Kapadwanj-387620, Gujarat ,India.
- **Date of Birth**   : 7th October, 1990.
- **Language Known**   : English, Gujarati, Hindi.
- **Blood Group**   : A +Ve.

I hereby declare that the information mentioned above is true to the best of my knowledge.
